

PUBLIC NOTICE

City of Claxton Recycle Center

The City of Claxton has a Recycle Center, located on North Peters Street. We contract with AllGreen Services, LLC to take our recycle containers to a single stage recycle resources center warehouse in Savannah. There, the containers are emptied onto a conveyor belt where the contents are separated for recycling.

At our Recycle Center, there are signs informing the public of what types of items can be accepted for recycling.

**The following items are NOT
allowed for recycling:**

Batteries, Computers, Tires, Glass, and any hazardous materials including paints and oil.

We appreciate everyone's cooperation in only disposing of the types of items listed for recycling.

Mayor and City Council
